Session 3 – Round table discussion

Speaker: Monika Heiming

Institute: European Rail Infrastructure Managers (EIM)

Country: Belgium

Monika has been Executive Director of EIM since October 2011. She has been active in Brussels as a lobbyist and manager of international associations and groupings for a number of years. Monika, a German citizen, studied languages at the University of Cologne, and holds a Master's degree in European Management from the University Faculties in Brussels and an Executive MBA from the Belgian Solvay Business School. Among her previous experience, she helped to develop the UNIFE association in Brussels from 1993 to 1997. She also managed and marketed the engineering activities of European engineering group Europengineers (EEIG) from 1999 to 2004, before being made Secretary-General of the European Rail Freight Association (ERFA) in January 2005.

Title of the presentation: Introduction to the debate - What are the needs and challenges of the Transport Infrastructure owners in terms of innovative governance, management and financial solutions?
